Nick Hamilton, Barnsdale Gardens: *"As one of the main tourist attractions in Rutland there is no question that our business has benefited greatly from the help and assistance we get from being a member of Discover Rutland. We certainly could not afford the press coverage they are able to generate for us and/or other members, as well as those benefits gained from being able to work together as part of a group to achieve the best for every member. We have always been clear that, in this small county, we are able to achieve a lot by working together and membership of Discover Rutland gives us the best platform to realise our ambitions."*
